

ASEAN Colorectal Forum 2019

Concurrent Nursing Workshop - SPARKS Advanced

Support Program to Advance & Reinforce Knowledge and Skills

16th Aug 2019, Friday | 7:30am to 3:45pm

CGH Centre for Clinical and Surgical Skills
JurongHealth Simulation & Clinical Education Centre (JSCEC)

Workshop Description

OR NURSE SPARKS Advanced is a specialized training workshop that will focus on specialty based situational learning. The workshop covers both didactic and hands-on content, including OT simulation of the procedure. Nurses can expect to gain in-depth procedural and product knowledge that is essential for their roles in the field.

Workshop Objectives

- To gain in-depth procedure knowledge, instrument use and handling.
- Familiarize oneself on surgical anatomy and disease in scope
- Better assist surgeons in the procedure
- To add value to patient care through increase in surgical efficiency and safety
- To continue to improve on current processes and practices
